

IV DEPARTMENT POLICIES AND PROCEDURES

Intravenous Therapy Services for Nursing Facilities

Table of Contents

I. General Policies and procedures

A. Overview of IV Therapy

a. Principle Uses of IV Therapy.....	1
b. Types of Vascular Access Devices.....	3
c. Infusion Equipment/Supplies.....	7
d. Table 1.1 – Complications Associated with IV Therapy.....	12

B. Organizational Aspects of IV Therapy

a. Legal Aspects of Infusion Therapy for Nurses.....	28
b. Documentation Guidelines for Infusion Therapy.....	30
c. Latex Allergies.....	32

C. Infection Control

a. Handwashing/Hand Hygiene.....	34
b. Personal Protective Equipment – Using Face Masks.....	37
c. Personal Protective Equipment – Using Gloves.....	39
d. Personal Protective Equipment – Using Gowns.....	41
e. Personal Protective Equipment – Using Protective Eyewear.....	43
f. Needle Handling and/or Disposal.....	44
g. Cleaning Spills or Splashes of Blood or Body Fluids.....	45
h. Aseptic and Sterile Techniques.....	47
i. Management of Multidrug-Resistant Organisms.....	48
j. Disinfection of Durable Medical Equipment for Intravenous Therapy.....	51
k. Guidelines for Preventing Intravenous Catheter-Related Infections.....	52
l. Culturing for Catheter-Related Infections.....	58

D. Medication Ordering, Receiving, and Storage

a. Physician IV Orders.....	63
b. Automatic Stop and Discontinuation Orders.....	65
c. Accepting Delivery of Medications.....	66
d. Controlled Substances.....	67
e. Emergency Pharmacy Service and Emergency Kits.....	69
f. Medication Storage.....	71
g. Medication Stability.....	72
h. Resident Discharge or Transfer.....	74
i. Discontinued Medications	75
j. Discarding and Destroying Medications.....	76
k. Medication Recalls.....	77

E. Catheter Insertion and Care

a.	Veins of the Arm.....	79
b.	Disinfection of Catheter Insertion Site.....	80
c.	Use of Catheter Stabilization Devices.....	82
d.	Use of Arm Boards in Infusion Therapy.....	83
e.	Use of Scissors in Infusion Therapy.....	84
f.	Insertion of Peripheral IV Catheter.....	85
g.	Insertion of Midline/PICC Catheters.....	90
h.	Implanted Venous Port – De-accessing.....	91
i.	Flushing Midline and Central Line IV Catheters.....	94
j.	Flushing Protocol for Implanted Venous Port.....	96
k.	Flushing the Peripheral IV Catheter.....	100
l.	Peripheral IV Dressing Changes.....	103
m.	Midline Dressing Changes.....	105
n.	Central Venous Catheter Dressing Changes.....	107
o.	Obtaining Blood Specimens from a Central Venous Catheter.....	110
p.	Hemodialysis Catheters.....	114
q.	Administration Set/Tubing Changes.....	117
r.	Changing the Needleless Connection Device and Extension Tubing.....	118
s.	Repairing Intravenous Catheters.....	121
t.	Intravenous Catheter Occlusion.....	123
u.	Removal of a Peripheral IV Catheter.....	124
v.	Removal of Central and Midline Catheters.....	127

F. Medication Administration

a.	Calculating IV Flow Rates and Dosages.....	131
b.	Withdrawal and transfer of Fluid from a Vial.....	134
c.	Withdrawal and transfer of Fluid from an Ampule.....	136
d.	Reconstitution of Medication from a Vial.....	137
e.	Electronic Infusion Devices/Pumps.....	139
f.	Elastomeric Infusion Devices.....	142
g.	Administering Medications through a Secondary Tubing.....	143
h.	Administering Medications by IV Push.....	146
i.	Admixtures.....	149
j.	Medication or Solution.....	152
k.	Medication Beyond-Use Dating.....	153
l.	Intravenous Administration of Fluids and Electrolytes.....	154
m.	Intravenous Pain Management.....	157
n.	Hypodermoclysis – Subcutaneous Hydration.....	160
o.	Dextrose 50% Injection/Infusion.....	162
p.	Parenteral Nutrition.....	164
q.	Parental Nutrition – Continuous vs. Cycled.....	168
r.	Parenteral Nutrition – Placement of Additives.....	169
s.	Parenteral Lipid Administration.....	172
t.	Documentation of Medication Administration.....	175

G. Medication Monitoring

- a. Therapeutic Medication Monitoring Guidelines.....177
- b. Laboratory Monitoring of IV Medications.....181
- c. Clinical Monitoring of Antibiotic Therapy.....182
- d. Clinical Monitoring of Cytotoxic Therapies.....184
- e. Clinical Monitoring of Parenteral Nutrition.....187
- f. Clinical Monitoring of Narcotics Used in Pain Management.....189
- g. Identifying and Managing Medication Errors and Adverse Consequences.....191
- h. Adverse Drug Reaction Reporting.....195

Appendix A: Sample Forms

Appendix B: Informational Resources
